

**MARCHING BANDS OF EUROPE and INTERNATIONAL CONFEDERATION OF MUSIC SOCIETIES**

**Invite to**

**MBE/CISM Clinic Tattoo/Show instructors  
In Copenhagen 27-29. November 2009**

**MBE/CISM Clinic Tattoo/Show course :**

### **Participants:**

The workshop is for all those who are already working in the field of marching and show bands, but also those who would first of all like to investigate the possibilities and orientate themselves in this field. We specially invite members of the federations and organisations associated with MBE and CISM. The language will be English.

### **What is in it for you?**

After this workshop the participant will have a good understanding of the ingredients for a successful show. You know the inside of the judges shopping list, you know what they are looking for. You will experience the fundamentals for a show program. It is all about listening, looking, doing and experiencing it!

After the introduction we will talk about what is on your mind, what is your experience? We will share with you the basics of how to put a good show together. We will show you examples of shows and we will let you be the judge.

You will learn about the concepts of show. You will see and hear a band perform their show live and you will experience a show rehearsal in order for you to learn about effective rehearsal techniques.

But there is more! You will actively put a short visual program together in teams so bring your team to this workshop!!

*Don't let the chance pass you by!*
